Re: Underground Injection Control
June 16, 2017, Minor Permit Modification clarification

Dear Mr. Schneider:

On August 11, 2017, the U.S. Environmental Protection Agency Region 8 Underground Injection Control program office received clarification regarding the referenced Permit modification. The clarification is that three of the wells included in the June 16, 2017, change of ownership Permit modification were acquired from Rig II, LLC. The modification stated that all 116 wells were acquired from Petroglyph.

This letter hereby clarifies that while the change of ownership modification to Crescent Point Energy U.S. Corp remains valid, three of the wells were acquired from Rig II, LLC, and not Petroglyph. The three wells requiring this clarification are shown in the attachment, and remain part of the approved 116-well Schedule A that was attached in the referenced modification.

Please note that the referenced EPA Permits remain fully effective and enforceable and all other provisions and conditions of the Permits remain as issued or modified. For further information, please contact Bruce Suchomel at suchomel.bruce@epa.gov or (303) 312-6001.

Sincerely,
